

The Histochemical Symposia, 1981

- Introduction to Symposia Paul J. Anderson, Anna-Mary Carpenter 993

THE CELL SURFACE

- Variability of Cell Surface Glycoconjugates—Relation to Differences in Cell Function S. S. Spicer, D. A. Baron, A. Sato, B. A. Schulte 994

- Receptor-mediated Endocytosis in Cultured Fibroblasts: Cryptic Coated Pits and the Formation of Receptosomes Mark C. Willingham, Angelina V. Rutherford, Maria G. Gallo, Jurgen Wehland, Robert B. Dickson, Richard Schlegel, Ira H. Pastan 1003

CELL MOTILITY AND COMMUNICATION

- Quantitation of Actin mRNA Content in Muscle Cell Cultures Robert J. Schwartz 1014

TECHNICS: STATE OF THE ART

- Freezing and Drying of Biological Tissues for Electron Microscopy Louis Terracio, Karl G. Schwabe 1021

- Electron Bean Microanalysis: Several Instrumental Developments Germane to Biology C. E. Fiori 1029

- Immunocytochemistry of Secretory Peptides: Immunochemical Dissections of Peptide Diversity Lars-Inge Larsson 1032

- Stereological Methods in Cell Biology: Where Are We—Where Are We Going? Ewald R. Weibel 1043

Original Articles

- Reversibility of Acid and Alkaline Deoxyribonuclease Deficiency in Malignant Tumor Cells H. S. Taper 1053

- The Relationships Between the Golgi Apparatus, GERL, and Lysosomes of Fetal Rat Liver Kupffer Cells Examined by Ultrastructural Phosphatase Cytochemistry Richard M. Pino, Linda C. Pino, Patrick W. Bankston 1061

- Ultrastructural Cytochemical Localizations by Back-scattered Electron Imaging of White Blood Cells Davide Soligo, Etienne de Harven 1071

Immunocytochemical Demonstration of Intracytoplasmic Alkaline Phosphatase in HeLa TCRC-1 Cells	Shin-Ichi Tokumitsu, Kumi Tokumitsu, William H. Fishman	1080
Enkephalin/Endorphin-related Peptides in Antropyloric Gastrin Cells	L.-I. Larsson, K. Stengaard-Pedersen	1088

Brief Reports

A New Species of Lysosome in Rabbit Polymorphonuclear Leukocytes	W. A. Shannon, Jr., D. M. Zellmer	1099
Immunoperoxidase Localization of Secretory Component in Reactive Mesothelium and Mesotheliomas	Carolyn S. Ernst, John J. Brooks	1102

Technical Notes

Primary Fixation in Osmium-Potassium Ferrocyanide: The Staining of Glycogen, Glycoproteins, Elastin, an Intranuclear Reticular Structure, and Intercisternal Trabeculae	Sidney Goldfischer, Yvonne Kress, Bernice Coltoff-Schiller, Joy Berman	1105
