

Original Articles

| | | |
|---|---|-----|
| Quantification of Antiserum Reactivity in Immunocytochemistry. Two New Methods for Measuring Peroxidase Activity on Antigen-coupled Beads Incubated According to an Immunocytoperoxidase Method | Christiaan W. Pool, Sarsia Madlener, Paul C. Diegenbach, Arja A. Sluiter, Paul van der Sluis | 921 |
| Novel Secretory Granule Morphology in Physically Fixed Pancreatic Islets | R. W. Dudek, A. F. Boyne, T. M. Charles | 929 |
| The Effect of Tween 20 on Indirect Immunoperoxidase Staining of Blood Group Antigen A in Human Urothelium | Birgitte R. Juhl, Tove Nørgaard, Ole J. Bjerrum | 935 |
| Thymic Hormone-containing Cells. V. Immunohistological Detection of Metallothionein within the Cells Bearing Thymulin (A Zinc-containing Hormone) in Human and Mouse Thymuses | W. Savino, P. C. Huang, A. Corrigan, S. Berrih, M. Dardenne | 942 |
| Characterization and Immunocytochemical Application of Monoclonal Antibodies Against Enkephalins | A. C. Cuello, C. Milstein, R. Couture, B. Wright, J. V. Priestley, J. Jarvis | 947 |
| Lactate Dehydrogenase Isozymes in Developing Rat Oral Mucosa. A Comparative Study of LDH Biochemistry and Histochemistry | Sven Sjögren | 958 |
| Histochemical Evaluation of Secretory Glycoproteins in Human Salivary Glands with Lectin-Horseradish Peroxidase Conjugates | Samuel A. Laden, Bradley A. Schulte, Samuel S. Spicer | 965 |
| Association of β -Cytoplasmic Actin with High Concentrations of Acetylcholine Receptor (AChR) in Normal and Anti-AChR-Treated Primary Rat Muscle Cultures | Beverly W. Lubit | 973 |
| Immunohistochemical Localization of the Immunodominant Differentiation Antigen Lacto-N-Fucopentaose III in Normal Adult and Fetal Tissues | Stephen G. Combs, Robert J. Marder, John D. Minna, James L. Mulshine, Milo R. Polovina, Steven T. Rosen | 982 |
| Ultrastructural Localization of Nicotinamide Adenine Dinucleotide Phosphatase (NADPase) Activity within Columnar, Goblet, and Paneth Cells of Rat Small Intestine | S. M. Parsons, C. E. Smith | 989 |
| Histochemical Localization of NADP-dependent Dehydrogenase Activity with Four Different Tetrazolium Salts | Cornelis J. F. Van Noorden, Roger G. Butcher | 998 |

Technical Notes
